Description. Development Through the Lifespan continues to lead the market with its currency, clarity, solid research, and rich examples of human development. Laura Berk, renowned professor and researcher in the field of human development, has revised the text with new pedagogy, a heightened emphasis on the interplay between biology and environment, and expanded coverage of biology, culture, and social issues, while emphasizing the lifespan perspective of development.

Brain development has a protracted time course in humans beginning in the third week post conception and extending to the third decade of life. The brain develops in 7 well-defined phases that overlap and are repeated over the course of development. Neurodevelopmental disorders arise when processes engaged during construction of the brain go awry.
