In the last decade there  
have been rapid  
developments in the  
field of computer-based  
learning environments.

# Download Free Instructional

A whole new generation of computer-based learning environments has appeared, requiring new approaches to design and development. One main feature of current systems is that they distinguish different knowledge bases that are assumed to be necessary to support learning processes.

## **Computer Based Learning in Computer-Based Learning ..**

Computer-based instruction, or CBI, is a teaching approach that integrates computer software programs with other teaching materials in the classroom. Other terms used for CBI are: computer-based

# Download Free Instructional

training, computer-assisted instruction and computer-assisted learning. There are many ways CBI can be used in the classrooms or as standalone learning tools.
